100% real and valid exam dumps can ensure you pass at the first attempt

Exam : **H35-582**

Title : **HCIE-5G Radio V1.0
(Written)**

Vendor : **Huawei**

Version : **DEMO**

QUESTION NO: 1

Which of following coding schemes is predominantly used for traffic channel in 5G?

- A. LDPC
- B. palor code
- C. turbo coding
- D. convolutional code

Answer: A

QUESTION NO: 2

In which protocol version is D2D technology frozen? (single-choice question, 2 points)

- A. R14
- B. R16
- C. R15
- D. R8

Answer: B

Explanation

D2D communication (Device to Device), the base station allocates spectrum for the direct interconnection of terminals and terminals, which reduces the transmission delay and increases the capacity of the base station, which is frozen in R16.

QUESTION NO: 3

Which of the following statements about the characteristics of smart grids is incorrect? (single-choice question, 2 points)

- A. Diverse interactive electricity consumption
- B. Centralized power distribution
- C. Safe and efficient power transmission
- D. Clean and Friendly Power Generation

Answer: B

Explanation

Question Analysis: Distribution automation rather than centralized distribution.

QUESTION NO: 4

In what year was the 3GPP organization founded? (single-choice question, 2 points)

- A. 1996
- B. 1998
- C. 2000
- D. 2002

Answer: B

Explanation

Analysis of the test questions: 3GPP was established in December 1998, and a number of telecommunication standard organization partners jointly signed the "Third Generation Partnership Project Agreement".

QUESTION NO: 5

Which of the following organization defines 5G standards?

- A. OTSA
- B. 3GPP
- C. 3GPP2
- D. JEE

Answer: B

QUESTION NO: 6

In the 5G business scenario, which one will be commercialized at the latest? (single-choice question, 2 points)

- A. uRLLC
- B. mMTC
- C. eMBB
- D. eMTC

Answer: B

QUESTION NO: 7

Which of the following URLLS statements are correct?

- A. The typical application scenarios of URLLS include automated driving, drones, and telemedicine.
- B. In mid-2018, 3GPP release completed the URLLC basic version, By the end of 2019, the completed version of 3GPP release 16 was provided.
- C. URLLS mainly considers the requirements on network delay.
- D. URLLS services require a delay of less than 10 ms

Answer: A,B,C,D

QUESTION NO: 8

which of the following are service seniors where VR is predominately used?

- A. Video .
- B. Gaming .
- C. Education .
- D. industrial manufacturing

Answer: A,B,C

QUESTION NO: 9

Which of the following is not an advantage of a thin client in the cloud x se rvices?

- A. low cost
- B. easy deployment and management
- C. efficient storage
- D. mobile

Answer: C

QUESTION NO: 10

Which of the following power grid businesses has the highest requirements on the number of terminals?

(single-choice question, 2 points)

- A. Low-voltage electricity consumption information collection
- B. Distributed distribution automation
- C. Precise load control
- D. UAV power grid inspection

Answer: A

Explanation

The collection of low-voltage electricity consumption information is a mMTC business, which requires a high number of terminals.

QUESTION NO: 11

In the 5G bearer network, the EVPN protocol is used to replace the traditional tunneling protocol.

- A. False
- B. True

Answer: A

QUESTION NO: 12

Where is VR currently on the Hype Cycle? (single-choice question, 2 points)

- A. The trough of the bubble burst
- B. Steady climb recovery period
- C. Technological infancy
- D. Expectation inflation period

Answer: B

Explanation

VR is currently in a recovery period of steady climb.

QUESTION NO: 13

Which of the following is not a requirement for 5G fronthaul network transmission?

- A. The one-way delay requirement is less than 100s
- B. The packet loss rate is 0
- C. eCPRI mainstream interface rate 25Gbps
- D. The clock accuracy is $\pm 65\text{ns}$

Answer: B
